THE PARTY PARTY

OUR POLICIES 2021

The Party Party

The Party Party was established in 2013 and is on The Electoral Commission official register RPP8580658.

It was set up to encourage younger voters to engage in the political debate outside of the traditional main parties.

Politics does not need to be combative and should be more respectful and inclusive of all views.

Stop Sleaze In Westminster

MPs need to be told that they were elected by the constituents to serve the constituents and not themselves.

MPs are taxpayer funded and need to work full time as a Member of Parliament. We need to stop paid lobbying and second jobs without any proper scrutiny. No family members on expenses payroll unless fully justified. No Taxpayer paid foreign trips unless pre-authorized or second homes allowance without a real need.

The Party Party will work tirelessly to end these practices and will support any action or legislation that seeks to do this.

Stop Racism, Bigotry and Ignorance

We support an end to racism and bigotry and think this is best tackled from the ground up through better education.

People are born with an open mind and it is only through ignorance that the majority of the issues arise.

We will lobby for a change in the school curriculum to make the teaching of a tolerant, one world society irrespective of race or religion.

Stop Climate Change

This is one of the biggest challenges facing our planet and the future of our children and their children and all future generations.

We will only have one chance at this, so The Party Party will support any measures to reduce emissions including clean energy.

Education

Our future rests on providing the best education to take us forward and we need to invest more in infrastructure and teaching.

Health

The recent Covid crisis has shown us how important the NHS is to our wellbeing. We need to invest in its most important asset which is the people who work in it - across the board from nurses, support staff, doctors and surgeons.

Housing

The younger generation need affordable housing and we would promote the use of existing brownfield sites as opposed to green belt land. We will advocate the conversion of redundant high streets and offices into homes.

Immigration

We support a strong immigration policy, in that only genuine applicants may stay whilst recognizing we need an element of free movement to support our economy which is now under our control.

Transport

Our policy is to advance all forms of public transport in order to reduce the use of private vehicles.

Energy

The only way forward is through renewable energy. The recent collapse of energy providers and the rise in prices clearly shows there needs to be more regulation in the market.

Brexit

We left the European Union almost 12 months ago and despite all the dire warnings our economy continues to grow, irrespective of the Covid restrictions that have affected us all. It is time to move on and heal any divisions that exist so we can all contribute to our future success together.

VOTE RUSSELL DEAN - THE PARTY PARTY

Russell Dean

The Party Party

Originally from Chester, I attended Wrekin College, Wellington followed by The University of Western England to study surveying. I then proceeded to graduate as a Member of the Royal Institution of Chartered Surveyors, MRICS.

After a year of travel throughout Asia, Australia, New Zealand and USA, I started my career in 1988 as a commercial property agent in central Manchester.

In 1992 I set up a commercial agency and property investment company which traded successfully for 25 years. The business was relocated to Monaco in 2007 where I have worked and lived happily with my wife and three children for the past 15 years. I now work in the yacht industry with Bluewater Yachting in sales and charter.

I have always been interested in politics and in standing as an MP. I am proud to have the chance to stand as the MP for North Shropshire, so close to my home town of Chester and my old school Wrekin College. It is a wonderful chance to help other people and, if elected, I will relocate back to the UK to serve the constituency.

I believe my commercial experience will be an asset as your MP.

A Protest Vote

A vote for Russell Dean is a chance to show the main political parties that it is a time for change at Westminster.
