Consisting of five modules, this course teaches essential safety information that every person at sea should know, such as how to deal with onboard emergencies. The five main areas covered are sea survival, first aid, personal safety, security and fire-fighting. You will complete this course with the knowledge of how to respond appropriately in an emergency at sea or on land.

Whether you just want to have a go on holiday or buy your own, our Personal Watercraft course will teach you how to get the best from your experience. The course is designed for first time and experienced riders alike. You will need this licence to operate a Jet Ski in Europe.
